International Workshop

Connecting Smart-Cities-Initiative and the European Strategy for the Danube Region

The Smart Cities Initiative shows different approaches how to cope with problems connected to growing cities and the climate change. In the first part of the workshop the project will be presented and the participants will have the possibility to get to know each other and to present their perspective on Smart City or the EU-Strategy of the Danube Region. In the afternoon there will be a participatory session. You are invited to share your experience, discuss selected topics and examine potentials of Smart Cities within the Danube Region.
