**To be discussed during break-out sessions:**

- Feedback and common agreement on Smart Cities vision 2050 in terms of
  - Methodologies and concepts
  - Technology integration, demonstration and implementation
- Based on this vision, what are the selection criteria to be applied for Europe wide project screening?
- What are projects of a European format/dimension?
- Which impact do Smart Cities lighthouse-projects have in Europe?
- What is the scientific background of current Smart Cities projects?
- What innovation level do we expect from Smart Cities projects?

Workshop attendants are strongly encouraged to bring one “best-practice example of a Smart Cities project” from their respective Member State that shall be discussed in the working groups!
